Subject: Heads up

Personal Email/Ex. 6

Good morning Ms. Lambie. I wanted to give you a heads up that the company Harrison Western will be doing some work up at the Gold King mine portal that might bring some mucking or discoloration down river. I will make sure you get a heads up when the company begins the work.

Also, we have burned through just a little over 80% of the \$100,000 dollar ceiling, so if you can talk to the EPA at the ICP about raising the ceiling that would be great.

Any new word on the housing situation? I would have figured the savings, not to mention the safety factor, would have gotten us in the rental houses.

Whelp, have a good day.

Very Respectfully

BM1 Nicholas Poen
